FOLD THIS BAND OVER THE STRING

Papel picado cutting template

1. Fold 2–4 sheets of tissue paper in half lengthwise (see the folding guide).

2. Cut this page along the solid line. The part with the gray areas is your template.

3. Lay it on the folded tissue with the FOLD EDGE on the folded edge. Clip the layers together.

4. Cut away every gray area through all layers: small holes first, the outer edge last.

5. Unfold slowly.

6. Fold the top band over a string and glue it.

✂ FOLD EDGE · cut the page along this line
